Customised Pregnancy Testing Package

At Clutha Vets we tailor our pregnancy testing services to meet your requirements. The CVA pregnancy testing service is more than just “scanning your cows or heifers”. Additional benefits to you include:

- **Date of your scan – flexible**
 - We offer advice on appropriate scan date for your heifers or cows
 - Experienced team of scanners available when needed
- **More than one vet at each job ensures**
 - Jobs are completed safely & efficiently
 - Accurate aging of pregnancies
- **All empty cows are manually checked which allows us to**
 - Accurately confirm cows as empty
 - Identify cows with damage to their repro tracts that are unsuitable to be carried over
- **Electronic data entry with Infovets upload to MINDA**
 - Removes the need for re-entry of data at a later date
 - Our rugged touchscreen Toughbooks allow easy data entry
 - Technicians also available to assist with data entry if needed
 - Improves the accuracy of the data recording
- **On farm repro discussion**
 - On date of scan we can immediately access your results via Infovets
 - Discuss your repro performance (6 Week In Calf Rate and Empty Rate)
- **Comprehensive reporting of your results which includes**
 - Recheck and Empty lists
 - A Weekly Due To Calve list
 - An Expected Due To Calve By Cow list
 - Lists of cows which are double ups/slipping/twins/damaged
 - In-calf rates of cows enrolled in CIDR, OvSynch and PG programmes
- **Can be performed in**
 - Rotary sheds at milking
 - Pitfits available for Herringbone sheds or the AI race can be used
 - Heifers and Carryover cows can be done in cattle yards
